

COVER

Design by

Marie C Dorner

Description

The name COVER is just as evocative of the concept as it is of the function. Its comfort and sensuality mask brazen simplicity of use : the cover of COVER can be removed in a matter of seconds, making maintenance almost a pleasure. The cover is draped over the structure like a throw, seeming to hover over it.

Technical Specifications

CONSTRUCTION

Structure of settees in high resilience Bultex foam ; footstool has a wooden carcass made from 3-layer particleboard. Black polypropylene gliders.

COMFORT

High resilience Bultex foam (36 kg/m3 - 2.7 kPa, 38 kg/m3 - 3.6 kPa). Polyether foam (28 kg/m3 - 4.8 kPa, 34 kg/m3 - 6.4 kPa). Core of settee armrests in moulded foam.

Settees are systematically supplied with a 40 x 40 cm feather-filled cushion, upholstered in the same covering material as the main cover. This cushion is also priced separately to enable additional cushions to be ordered ; additional cushions may be made up in any fabric or leather from the collection.

MAKING-UP

The medium and large Cover settees are composed of a base and a 'cover', which is draped over the base and is held in position by toggles at the rear of the seat. These items may be bi-colour and/or bi-material.

Base is covered in fabric (to order) + base cloth. The stitching of the cover follows the outline of the back and armrests, creating a geometric effect which appears completely random. The stitching serves to 'quilt' the covering fabric used, whilst the upper and lower fabrics act to sandwich 300 g/m2 polyester quilting. Progressive V-shaped motifs (denser towards the middle of the seat and less so at the edges). The cover may be removed easily and may be dry cleaned.

Footstool : baguette stitching around the edges. Cover is quilted with 110 g/m2 polyester.
