## Description

Faces Simone is a Lazy Susan in marble that complements the collection of the same name, featuring a stylised representation inspired by a female philosopher: Simone de Beauvoir, with her headband: "SIMONE." A refined piece, it will sublimate your tables and reception areas thanks to its natural marble surface (three renowned marbles from Rajasthan). Both aesthetic and functional, marble will endure all temperature variations. Its smooth rotating mechanism provides convenient access to food and accessories, ideal for convivial meals or as a decorative accessory on a low table. This rotating plate is made from a blend of three renowned marbles from Rajasthan (white marble, black marble, and light brown marble called Forest Gold). Each marble piece is created using a water jet process, then the marble pieces have been glued together.
